

## Brie & Grape Quesadillas

These quick and easy quesadillas are amazing, filled with creamy melted brie, sweet grapes and scallions for a little bite. You can prep these ahead of time then fry or grill them up just before serving.

This isn't really a recipe. Everyone knows how to make a quesadilla! This is just some filling ideas. Try substituting other fruits, like sliced pears, plums, apples or peaches. And try adding sliced scallions and chopped walnuts for some extra flavor and crunch.

My brilliant brother-in-law freezes the halved grapes before assembling his quesadillas. Then he puts them on the grill. Hot cheese, cold grapes, smokey, grilled tortilla. Yum!
